SUMMARY

Software Engineering student at AASTMT (expected 2028) who builds and deploys web applications with React, TypeScript and JavaScript. Completed a six-month Full Stack course at AMIT and a professional internship at GASCO. Seeking a software engineering internship or part-time role in frontend, backend or full-stack development.

EDUCATION

Bachelor of Science in Software Engineering Expected 2028
Arab Academy for Science, Technology and Maritime Transport (AASTMT)

- Currently in third year.

PROJECTS

Ahwa: café finder for students in Cairo
Live: ahwa-cairo.vercel.app | Code: github.com/mahmoudsharks09/ahwa
Technologies: React 19, TypeScript, Vite, Leaflet, React Router, OpenStreetMap

- Built a bilingual English/Arabic web app with full right-to-left (RTL) support that maps 341 real Cairo cafés from OpenStreetMap data.
- Calculated live open-now status in Cairo time and added filters for Wi-Fi, outdoor seating, air conditioning, no smoking and area.
- Implemented saved cafés and personal notes, and deployed the app on Vercel.

GoMart: e-commerce storefront with admin dashboard
Live: gomart-amit.vercel.app | Code: github.com/mahmoudsharks09/GoMart
Technologies: React 19, Vite, React Router, Bootstrap, React Bootstrap, REST API (DummyJSON)

- Developed a storefront with a product catalog, category browsing, search, filters, product detail pages and a cart with live totals.
- Implemented login with role-based access control (Admin, Moderator, Tester) and an admin dashboard with create, read, update and delete (CRUD) for products.
- Integrated product data from the DummyJSON REST API and deployed on Vercel.

Serenite: one-page storefront concept
Live: serenite-website-seven.vercel.app | Code: github.com/mahmoudsharks09/serenite-website
Technologies: HTML, CSS, JavaScript

- Hand-coded a responsive single-page shop with a product collection and add-to-bag flow in plain HTML, CSS and JavaScript, with no framework or build step.

EXPERIENCE

Intern, GASCO (Egyptian Natural Gas Company) 2025

- Completed a professional internship and received a certificate of completion.

Freelance Web Developer, Self-employed

- Built and shipped work for real-world requirements.

Full Stack Web Development Course, AMIT 6 months

- Completed a six-month full-stack development training program.

SKILLS

Languages: Java, Python, C, C++, JavaScript, TypeScript, HTML, CSS, SQL
Frameworks & Libraries: React, Node.js, React Router, Bootstrap, Leaflet
Tools: Git, GitHub, Vite, Vercel, VS Code, IntelliJ IDEA, Figma
Databases: MySQL
Concepts: REST APIs, responsive web design, internationalization (RTL), role-based access control

ADDITIONAL INFORMATION

Certifications: GASCO Internship Certificate (2025)
Activities: Google Developer Student Club (GDSC); technical clubs and volunteering
Languages: Arabic (native), English (B2)
